

Remember that famous slogan of journalism - "Fair and Balanced?" Why not make it the way we really use the public airways? If Sinclair Broadcasting is allowed to "force" its stations to show a program like "Stolen Honor," they should be required to balance it with the other side of the story. Require them also to show "Going Upriver," and do it in a timely manner - BEFORE the Nov. 2 election.

Your agency is required by law to serve the public interest. When you permit one-sided required programming with an overt political agenda so close to a defining national election, you disgrace yourselves, subvert the democratic process, and abuse the public trust. I hope someone in the FCC has more integrity than that. We'll see.
